

With lumberTrack your Business is Built Right In!

lumberTrack is more than the premier business software solution on the market. For hardwood and softwood sawmills, panel mills, value-added remanufacturers, distributors, wholesalers and brokers, lumberTrack means a partnership with the true business solutions leader in the forest products industry.

For your business, the bottom line is that accurate and accessible information makes for better business decisions

Accurate real-time inventory control is the foundation for lumberTrack's management of information throughout your operation. But accurate inventory information is just one of the many benefits you'll achieve. With lumberTrack, all your critical business information is so easily and quickly accessed that it will alter the way you do business—allowing you to automate your paperwork, expand your operations, offer Internet-based customer service and a host of other business improvements. Our customer's experience is that lumberTrack pays for itself in reduced inventory costs, increased sales and higher profits.

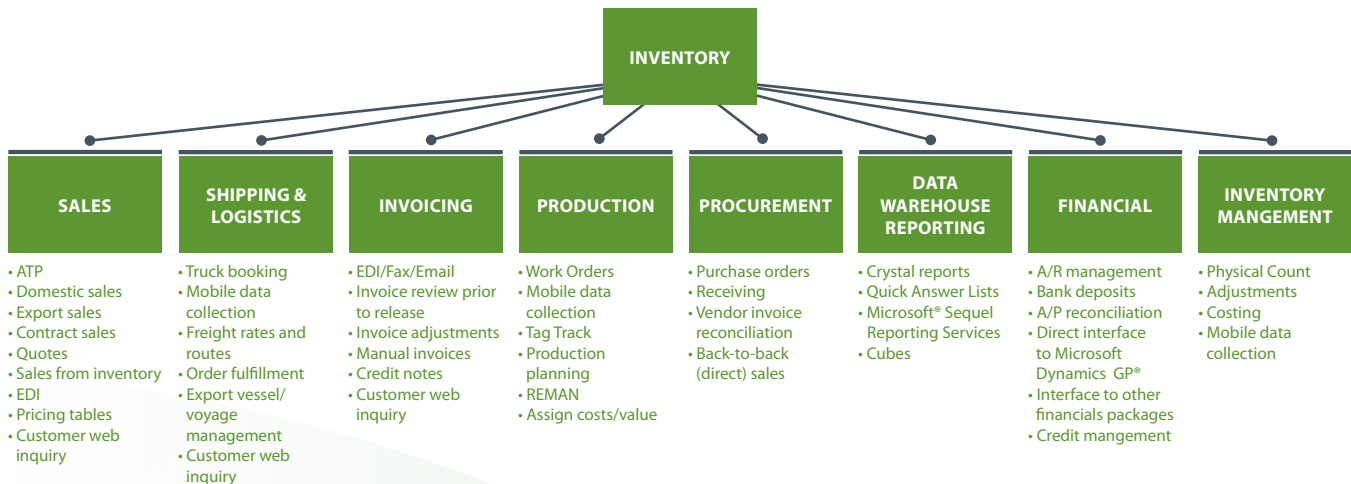

Just some of the benefits lumberTrack provides are:

- Accurate inventory information.
- Complete order-to-invoice processing.
- Superior visibility of product costs, margins and sales trends.
- More efficient sales and administrative staff.
- Non-redundant data entry and reduced errors.
- Fully integrated business departments.

lumberTrack Overview...continued.

Integrated software modules streamline you transaction processing

Using real-time inventory management as the hub, lumberTrack's functional modules integrate all aspects of your company's business information, improving efficiencies, internal communication, and customer service. The following diagram illustrates how each business function both contributes to and derives data from lumberTrack's central inventory control data repository:
